COTTON MOP

PLASTIC CONNECTOR TYPE MOP

CONNECTOR TYPE MOP WITH METAL HOOK

POLYESTER MOP

100 % cotton mops: Made with natural material which gives it very high absorption capacity. Mop threads are available in two (2) or four (4) ply depending on the preference of our clients.

White Fiber polyester mops: Made with synthetic materials giving it great durability and absorption capacity.

SCREW-ON

CHOOSE THE TYPE OF CONNECTOR YOU WANT

Wire Connector: Classic connector where the mop head and broom handle are attached together.

Plastic Connector: Screw-on connector, mop head and broom handle come separately. Ideal for export.

Plastic Connector with metal hook: Reinforced for extra strength, this screw-on connector also comes with the mop head and broom handle separately. Ideal for export.

Janitor wingnut metal: This metal connector comes separately and is attached to a sewn mop head, best for commercial or industrial use. Ideal for export

Janitor plastic swing away: This plastic connector comes separately and is attached to a sewn mop head, best for commercial or industrial use. Ideal for export.

CUSTOMIZE THE PRODUCT WITH YOUR LABEL

Choose between your brand label or ours. If you have your label send us the print file and you'll get a ready to sell product.

CHOOSE THE KIND OF FIBER
